SCHOOL POLICIES AND DISCIPLINE GUIDELINES
Berwyn South School District 100
2016-2017
INTRODUCTION

The vision for Berwyn South School District 100 is to rank within the top 25% of districts in the State of Illinois as evidenced by state testing. The mission of D100 is to provide positive, appropriate learning opportunities for each student. These opportunities shall foster the development of basic values, good citizenship and a sense of self worth to enable students to be productive citizens in a rapidly changing world.

Each school will enhance learning by supporting:

- A creative, comprehensive and effective curriculum
- A safe, orderly and stimulating environment
- A competent and caring staff who strive to teach by example
- An informed and collaborative community.

This handbook is to help students and their parents become aware of school policies and expectations. Our district recognizes that each student has rights and responsibilities in a democratic society. However, there may be times when individual rights must be restricted so they do not interfere with the rights of others. Expectations and regulations are needed to ensure that each student who attends school receives the best possible education. The administration and teachers have the authority to take action and make decisions for the safety and well being of the students and staff. While it is not possible to anticipate all situations, these are the some of the school policies and disciplinary guidelines.

Please read this handbook carefully with your child. Your electronic signature of receipt and understanding of the guidelines is completed during the registration process. For future reference you can find this document on the District website wwwbsd100.org under parent resources. In addition, you may request a copy of it from your school principal. Further, the District's Board Policy Manual contains additional information affecting your child. The Board Policy Manual may be found on the District's website under Board of Education.
ATTENDANCE

Our goal in District 100 is to be in the top 25% of school districts in the state of Illinois. One important way to help accomplish this goal is for our students to be here on time each and everyday. All of our schools have positive incentives for students with regular attendance. If our students are not in school they lose teaching instruction, physical activity and socialization.

REPORTING AN ABSENCE-In an effort to further improve safety for your children, District 100 utilizes an absence reporting system. Parents/Guardians should call school by 8:30 am to report an absence and the reason for the absence. According to the Illinois School Code, Schools must attempt to make contact with the Parents/Guardians of all absent students that they have not heard from by 9:00 am. Schools will initiate calls to home, work, or emergency numbers. If possible, staff will do home visits if phone contact is not made. If no contact is made absence will be considered unexcused.

VALID REASONS FOR ABSENCES-(Illinois School Code 105 ILCS 5/26-a)

1) Illness
2) Observance of a Religious Holiday
3) Death in the Immediate Family
4) Family Emergency
5) Other situations beyond the control of the student as determined by the Board of Education in each District or circumstances, which cause reasonable concern to the parent for the safety or health of the student

TARDINESS-Students are responsible, with the help of their parents, to come to school on time. All student tardies are recorded and generally unexcused. Students in PK-5 schools need to be signed in by their parents when they are late. Tardiness may result in loss of school privileges. Repeated tardiness is considered truancy and will result in disciplinary action.

ATTENDANCE WATCH LIST-Our support staff assist families with problem solving ideas and interventions to help their child get to school if necessary. Students who have been absent 15 or more days during the previous school year may be put on an Attendance Watch List. This will be based on the circumstances surrounding the absences. Parents will receive a letter prior to the start of the school year. Parents of students on this list will need to provide the school with a note from a physician for any absences after 9 days in order for the absences to be considered excused for the current school year.

TRUANCY- According to the Illinois School Code a student who is absent without valid cause from such attendance for a school day or a portion thereof is considered truant. A “Chronic Truant” is a student who is truant 5% or more days. When this occurs, the District may refer the guardians and students (older than 11 years of age) to the Berwyn Police Department. The City of Berwyn has recently passed an ordinance focusing on truancy. The consequence may be a fine not less than $75 and or community service not less than 10 hours. Students who continue to be truant can also be reported to the Regional Superintendent Truancy Office and Parents/Guardians can be subject to court and/or fines up to $500. (Illinois School Code 105 ILCS 5/26-2a and 26-10).
VACATIONS-A student who is absent from school for a vacation is unacceptable and the School District does not support or condone this. Absences will be marked as unexcused. Homework will not be provided since classroom instruction for assignments will be missed. Students who miss 5 consecutive days that are unexcused for any reason will be dropped from school and must register to re-enter. If this occurs and classes are closed at the specific grade level, the student will have to attend another school in the District.

MEDICAL APPOINTMENTS-All medical appointments, if possible, need to be made during non-school hours. If a medical appointment occurs during school hours it will be considered UNEXCUSED unless a Physician's note is provided. Students who are absent 3 or more consecutive days for an illness will also need a Physician's note to excuse the absences.

RELEASE DURING SCHOOL HOURS-Students having to leave during the school day should be kept to a minimum. This is very disruptive to the learning environment and should only be for an explained family emergency or a necessary Physician's appointment (Physician's note needed upon return)

ARRIVAL TIME AND SUPERVISION
The entry bell will ring at 8:25 am with students in their seats at 8:30 am for elementary schools. The entry bell will ring at 8:10 am with students in their seats at 8:15 am for the middle school. Students in the elementary schools may not enter the building prior to 8:25 am unless they are under supervision of a teacher. Please check with your school for early morning access times. Students in the middle school may enter at 7:40 am. For security reasons, only the main door of our schools will be open after the start of school. This door has a visual monitoring system. After arriving at school, students must remain in school until the final dismissal bell. Students will be released only to a parent or an individual designated by the parent to pick up the child. A note should be provided with documentation of a visit to the student's physician if pertinent. The school staff does not take responsibility for supervision of students on the playgrounds except the following periods before and after school, recess times, at lunch and for special school activities on school grounds.

WEATHER ALERT
Though district schools seldom close due to severe weather conditions, each school PTA, PTSA and Chicago radio stations will be notified of any school closings. In the event schools are closed, radio stations begin at 6:00 AM and list closed school districts in numerical order. School closings will be broadcasted through phone, text and email. The announcement will be posted on the district and school web sites wwwbsd100org posted on Facebook, PowerSchool, Schoology and other media sources.

MEDICAL/ HEALTH POLICY
School personnel will administer medication that is prescribed and that needs to be given on a daily basis. We encourage parents to make every attempt to give medication before and after school. Frequently antibiotics can be given during non-school hours. When it is necessary to give medication in school, the medication must be supplied in a pharmacy labeled container and must be locked in the health or school office. No medication will be given to students and no child may self-administer medication without a written parental permission and a written physician’s order for medications prescription and over-the-counter.

The following items are not allowed in school without a physician's note: aspirin, Tylenol, cold tablets, cough drops, etc. Another child could take them accidentally.

The Illinois Emergency Epinephrine Act, PA 97-0361, allows schools to stock a supply of epinephrine auto-injectors, authorizes schools and or to enter into an agreement with a physician to provide the school with a prescription to obtain the auto-injectors, and gives school nurses (RN) or trained school administrator the power to administer the epinephrine to any student whom the registered nurse/administrator believes is having an anaphylactic reaction.
ILLNESS OR INJURY OF STUDENTS
A student who becomes ill at school will be made comfortable and the parent will be notified as soon as possible. An injured child will be given first aid. If the school nurse decides expert care or home rest is needed, the parent will be called. It is the responsibility of the parent to pick up the child or make necessary arrangements. **It is critical to have updated emergency information on file. In an emergency, 911 will be called.**

WHEN TO KEEP YOUR CHILD HOME
Children with symptoms of illness are not in the best frame of mind for learning. Remember your child’s illness has an impact on all students learning. Please do not send a child to school if any of the following are present:

- Constant coughing
- Vomiting
- Temperature of 100 or higher
- Diarrhea
- Rashes or any scratching for unknown reasons, with or without fever
- Red watery eyes that were crusted shut upon awakening

Continue to keep your child home after an elevated temperature until he/she has a normal temperature for 24 hours without the use of anti-fever medication. Please do not call your child’s school requesting that your child stay indoors at lunch/recess. If the weather is too cold or it is rainy, all the children stay indoors. If your child is too sick to go outdoors, the school requires a physician’s note. In order to be excused from P.E./gym, a physician's note is required.

HOME/HOSPITAL STUDENT SERVICE
If it is anticipated that a student will be absent two weeks or more due to illness or injury, the parent should call the principal to make arrangement for district-provided home or hospital tutoring. Students with chronic illnesses with ongoing treatment or symptoms may also qualify for these tutoring services. Paperwork can be obtained from the school nurse to be completed by your physician.

HEALTH EXAMINATIONS
Illinois law requires all students to have a complete health examination, which includes a current immunization list and complete medical history BEFORE entering kindergarten and again BEFORE sixth grade. For transfer students, the physical examination report may be from a former school. If a student has not submitted a medical examination certificate by October 15th, the child will be excluded from attending school until requirements for such examinations have been met. It should be noted that kindergarten, 6th grade, and transfer students who do not have a current physical will not be able to participate in physical education classes. Sports physicals are required prior to tryouts for sports teams at the middle schools.

Concussions are caused by a bump, blow, or jolt to the head. They can range from mild to severe and can disrupt the way the brain works. All concussions are potentially serious and may result in complications if not recognized and managed properly. Any athlete even suspected of suffering a concussion will be removed from the game or practice immediately. Close observation should continue for several hours. IHSA policy requires athletes to provide their school with written clearance from a physician or athletic trainer. Parent and athlete will sign agreement to this policy before participating in sports.
IMMUNIZATIONS
Each student should have the immunizations against preventable and communicable diseases required by the Illinois Department of Public Health Rules have an authorized waiver and give appropriate notification to the principal. If a student does not have the necessary shots or waivers, the principal may remove the student or require compliance with a set deadline. This is for the safety of all students and in accordance with State Law. Any questions about immunizations or waivers should be directed to the office of the school principal. Parents or legal guardians who object, for religious reasons, to their child being immunized for school entrance must submit a Certificate of Religious Exemption, which now must be signed by a health care provider. Signed into law on August 3, 2015, this new legislation requires a health care provider to sign the certificate confirming they have provided education to the parents or legal guardians about the benefits of immunizations and the health risks of not vaccinating students.

HEARING SCREENINGS
Nurses will do a state mandated hearing screening on all preschool, kindergarten, 1st, 2nd and 3rd grade students. When the screening process is complete, only parents of children in need of further assessment will be contacted.

VISION SCREENINGS AND EYE EXAMINATIONS
Students enrolling in kindergarten or for the first time in an Illinois school are required by Illinois law to have an eye examination performed by an optometrist or ophthalmologist by October 15 of the school year. The required eye examination must be completed within 1 year prior to the first day of the school year in which the child enters kindergarten, or enters the Illinois school system for the first time. Nurses will do state mandated vision screening on all preschool, first, second and eighth grade students. Your child is not required to undergo vision screening if an optometrist or ophthalmologist has completed and signed a report form indicating that an examination has been administered within the previous 12 months. When the screening process is complete, only parents of children in need of further professional evaluation will be notified.

REPORT OF PROGRESS
The purpose of standards based reporting is to provide accurate feedback and reflect on student growth. Behaviors that promote learning, such as social development and work habits, are included but reported separately. Parents/ Guardians have access to their child’s progress and grades through the PowerSchool Portal on an ongoing basis. Please contact your child’s teacher if you have questions about accessing the parent portal on the Internet.

The school state report cards are on the district web site. They can also be found at www.isbe.net. A printed copy of the report card will be sent to parents upon request. Tobacco/nicotine/electronic cigarettes in any form has no place in the school or on school grounds, and possession or use of smoking material, matches, or lighters will be sufficient cause for immediate suspension from school. State law prohibits smoking on school grounds.

LOSS OF PRIVILEGES

Please understand that our goal is to have your child be successful. The loss of privileges program will encourage students to refocus their attention to appropriate school behavior. We appreciate your attention and support in this matter. A student will lose privileges when discipline guidelines are not followed. A loss of privileges occurs for a period to be determined by administration and consists of the following:

1. During their regular lunch period they will eat lunch in a classroom; they are expected to arrive with work to do.
2. The student must leave at dismissal unless otherwise requested by a staff member.
3. The student will not be allowed to attend field trips, assemblies, sporting events, or any other activities that are not required.
4. If the student receives a detention or suspension, during this 2-week period, additional time may be added to their loss of privileges.
5. Students may have the opportunity to earn back privileges per team (administration/teacher's) consent.
6. End of the year activities are special privileges and require special behavior guidelines.

Behavior Interventions and Supports
Berwyn South School District 100 utilizes Positive Behavior Intervention and Supports or Responsive Classroom in order to teach students what is expected of them behaviorally. “Positive Behavior Interventions and Supports (PBIS) is a proactive systems approach to establishing the behavioral supports and social culture and needed for all students in a school to achieve social, emotional, and academic success” (Illinois Statewide Technical Assistance Collaborative).

Universal PBIS
Staff is consistently monitoring student behavior to determine trends and areas that need to be addressed at a Universal Level. At the Universal Level, each school focuses on 3-5 school-wide behavioral expectations. These expectations are taught monthly with scripted lesson plans for teachers that feature modeling and role-playing.

Universal Interventions are classroom-based interventions that are led by the teacher. Some examples of Universal Interventions are Morning Meetings, Clip Charts, 3-point system, Falcon Fouls, Class Dojo, etc.

As PBIS teams meet to review individual student behavior, students are recommended or referred for various interventions based on referral data, teacher and/or parent recommendations.
Secondary PBIS

When a student is identified as needing a secondary intervention, parents/guardians will be contacted via phone, letter, or in person to discuss their child’s behavior and need for a more intensive intervention. Some examples of secondary interventions are:

Check-In/Check-Out (CICO): Check in/Check out is an intervention where a student checks in with a staff member every morning and is given a few words of encouragement. The student also receives a point sheet to track their behavior throughout the school day. At the end of the day, the student checks out with a staff member to go over their point sheet. Check in/Check out lasts for 20 school days. In order for a student to no longer require this intervention, they must average a score of 80% or higher on their points.

Social Academic Intervention Groups (SAIGs): Social Academic Intervention Groups is an intervention where a student participates in a small social skills group that teach/build pro-social replacement behavior. This intervention takes place for 6 weeks. In order for a student to no longer require this intervention, they must average a score of 80% or higher on their point sheet.

Some possible SAIG groups include:

1) Pro-social skills (replacement behaviors for avoidance, withdrawal, etc.) - Friendship Skills/Social Awareness/Relationship Building
2) Problem-solving skills (replacement behaviors for fighting, arguing, etc.) - Conflict Resolution Skills/Anger Management Skills/Self Management
3) Academic Behavior skills (replacement behaviors for getting out of seat, poor study habits, talking out during instruction, etc.) - Study/Organizational Skills/Focus/Self-Management Skills/Responsible Decision-Making

Check-In/Check-Out (CICO) with Individualized Features: CICO with Individualized Features is an intervention that adds individualized supports to generic CICO. Used after generic CICO has been tried for a set time (for example 4-6 weeks) and the student has not met the predetermined goal set for all children. Teachers are given the option to choose from these features after CICO was not enough support for a student. The different options are predetermined in each school.

Examples of CICO with individualized features:

Example one:
Extra check in time before/after lunch with secretary in office

Example two:
Peer accompanies student to check in at beginning of day and check out at end of day

Example three:
Check in with supportive adult prior to a difficult class period

Tertiary PBIS

Functional Behavioral Assessment: Students are referred to an individual problem solving team by the Secondary Systems Team typically when lower-level, Simple Secondary, interventions do not result in adequate progress. Any student not responding adequately to CICO, S/AIG and/or Mentoring will have a Functional Behavioral Assessment Completed. This focuses on determining problem behaviors, why the behavior is occurring, and how the student perceives they are being reinforced for the behavior.
Behavioral Intervention Plans: Once a Functional Behavioral Assessment is completed, the team will create either a Brief or Complex Behavior Intervention Plan. In these plans, students are taught replacement behaviors that are more acceptable than the current problem behavior with hopes that the student will eventually use appropriate behaviors to function within the school environment.

Wraparound Plans: When a student continues to struggle to meet behavioral expectations with a complex behavior plan in place, a team will start the wraparound process. Wraparound is a philosophy of care with defined planning process used to build constructive relationships and support networks among students and youth with emotional or behavioral disabilities (EBD) and their families. It is community based, culturally relevant, individualized, strength based, and family centered. Wraparound plans are comprehensive and address multiple life domains across home, school, and community, including living environment; basic needs; safety; and social, emotional, educational, spiritual, and cultural needs. Another defining feature of wraparound is that it is unconditional; if interventions are not achieving the outcomes desired by the team, the team regroups to rethink the configuration of supports, services, and interventions to ensure success in natural home, school, and community settings.

CRISIS PREVENTION INTERVENTION
When students become unsafe and pose a threat to themselves or others, staff may have to implement Crisis Prevention Intervention. This is a hands-on approach that keeps students safe while utilizing team members that are trained in the appropriate restraint models. Parents/Guardians will be notified in writing with a copy of the Behavioral Intervention/Time Out sheet that was completed by the staff involved with the intervention if a student’s behavior warrants physical intervention.

DETENTION
Even though Berwyn South School District 100 focus on Positive Behavior Interventions, at times, an after school or lunch detention may be used with students as a corrective disciplinary measure, to complete school assignments, or for purposes of student counseling. Notification that a detention was issued along with specific reasons will be sent home with the student or parents/guardians will be called. Parents/Guardians will be notified if the student is staying after school for a detention.

Parents/Guardians will be notified in advance in situations where the school provides transportation for the student. The parent/guardian shall be responsible for the student’s transportation home.

SUSPENSION
While detention is effective in most cases, some behaviors that are repeated or are of a more serious nature may result in an in-school or out-of-school suspension. Suspensions are serious consequences designed to ensure that our students comply with legitimate and necessary school rules.

- **In-school** suspension restricts the students to a time out room in the school or another location. During their in-school suspension, students will complete class work, do makeup work, or read quietly. Students on in-school suspension do not attend regular classes; however, they are expected to keep up with their regular class work. The students are not eligible for after school activities and must leave school grounds at dismissal.

- **Out-of-school** suspension is another measure, which may be used by the school administration when all other appropriate and available disciplinary interventions have been exhausted. Students on out-of-school suspension do not attend school during the time of the suspension but are afforded the opportunity to make up the work they missed. Parental or adult supervision is expected. Students
who are serving an out-of-school suspension are not allowed to attend any school activities during their suspension, nor are they permitted to be on Berwyn South School District 100 property.

**EXPULSION**

Expulsion is the most severe measure and can only be determined by the Board of Education. A student who faces expulsion will be required to leave the school after the School Board determines that he/she will be expelled. **In addition, expelled students are not allowed on District 100 property for the term of their expulsion.**

**VOLUNTARY ADMISSION**

If a student voluntarily reports an infraction of the substance abuse rules prior to the public record, no suspension will be issued; however, the student may be required to attend an educational substance abuse program. The purpose of this provision is to allow a student to seek help. A student may NOT use Voluntary Admission if the rule of infraction is already known by the school. The student may use Voluntary Admission only one time.

**MISCONDUCT BY STUDENTS WITH DISABILITIES**

Behavioral interventions shall be used with students with disabilities to promote and strengthen desirable behaviors and reduce identified inappropriate behaviors. The District will establish and maintain a parent-teacher advisory committee to plan and implement procedures for using behavioral interventions with children with disabilities. The procedures shall conform to the State Board of Education’s guidelines on the use of behavioral interventions, including that each student receiving special education services who requires the use of a restrictive behavioral intervention should have a written behavioral management plan developed by the IEP team and included in the student’s IEP.

The Superintendent may designate at least one staff member as a behavioral intervention consultant who shall assist staff with the proper use of behavioral interventions. This policy and the behavioral intervention procedures shall be furnished to all parent(s)/guardian(s) of students with Individual Education Plans at the beginning of the school year or at the time an IEP is written. The specific behavior intervention plan for the student will be a part of the IEP. Students and parents will be informed of the procedures and plans annually.

**DEPARTMENT OF LANGUAGE ACQUISITION**

**LANGUAGE LEARNERS**

The mission of the language services department is to empower and instill pride in children’s bilingual, biliterate, and bicultural identity in order for them to be successful global citizens who will be college and career ready. We commit to redefining bilingual education through the use of an additive model that includes the integration of effective biliterate and bicultural practices that embrace the whole child.

The department offers students three types of language programs that integrate language and content area instruction:

- **Dual Language Program** – Allows students to acquire two languages through an additive model in which students learn to read, write, and speak in two languages. Cultural instruction is integrated so that children gain an appreciation of language and culture. Currently, the program is offered to students in several elementary schools beginning in kindergarten and is expected to reach eighth grade. The ultimate goal of the program is to have students become bilingual, biliterate, and bicultural in Spanish and English.

- **Transitional Bilingual Program** – Allows students to acquire English by supporting student’s instruction through the use of their native language. The program begins in kindergarten and is available through third grade. The ultimate goal of the program is to have students reach proficiency in English.

- **Transitional Bilingual Program (ESL only) and Transitional Program of Instruction** – Allows students to acquire English while they are learning content through the use of explicit language strategies. The program is
offered to students from Kindergarten through eighth grades. The ultimate goal of the program is to have students reach proficiency in English.

HIGH ACHIEVING, TALENTED, AND GIFTED STUDENT PROGRAM
IDENTIFICATION OF STUDENTS IN NEED OF ACCELERATED LEARNING

Identification procedures using multiple criteria are used to make sure that all students are identified who are in need of accelerated learning. The accelerated learning model is tiered through three levels.

Students will be identified as early as kindergarten by utilizing multiple assessments and criteria including but not limited to:

- Demonstrated proficiency of grade level standards
- Above grade level performance on F and P, NWEA MAP and PARCC assessments
- Teacher, parent/guardian, and student nomination
- Identification checklist with qualifying information

Using this data, qualification decisions are made. A student profile will be created and analyzed. When students are determined to need accelerated learning parents are notified, teachers are informed, and the focused differentiation process begins.

Level I children, top 10% of their class, get additional attention through differentiation in the classroom.
Tier II children, top 5% of their class also receives expansion of learning during/before/after school clubs.
Tier III children, students who exhibit high-level abilities or behaviors that substantially surpass those of others of their age, experience and perform within the top 2-3% on the MAP; top 2-3% will qualify to take the WISC-V (intelligence test administered by a school psychologist). An overall IQ score on this assessment of 120 or above may qualify a student for a Differentiated Education Plan.
The differentiated plan is created with the classroom teachers; school accelerated coach, administrators, and parents of the child. Specific goals for the child are drafted and the plan is reviewed annually with the team members. During the DEP meetings, parents are encouraged to give input as the student’s academic progress is discussed.

SPECIAL EDUCATION SERVICES

A minimum of four documents will be required to establish residency. If four proofs are not provided at the time of registration, the student will not be enrolled. The four types of proofs that are acceptable are indicated on the online registration portal. A person seeking to enroll a child who cannot produce a lease, purchase property agreement or other similar document can have the individual responsible

The only exceptions to this requirement are for families who may qualify for homelessness under the McKinney Vento Act. The residency, enrollment and attendance rights of students who are homeless are established under federal (McKinney-Vento Act) and Illinois (Illinois Education for Homeless Children Act) laws. Homeless students include children sharing housing with others due to loss of housing, financial hardship, or those who lack a regular, fixed and adequate nighttime residence. A homeless student is generally entitled to immediately enroll in the school where they enrolled when they were permanently housed, the school in which student was last enrolled or the school in the attendance area where the homeless student currently lives. The district may be responsible for comparable services, including transportation, education and meals for the student, based on the student’s circumstances.
